

Motor Vehicle Report

Know an applicant's driving history before they get behind the wheel for you.

Conducts a search across motor vehicle records in all 50 states to identify driving violations of an applicant.

The MVR Records Report returns helpful data in understanding an applicants licensing and driving history, including:

- Name
- Address and country
- Social Security Number
- Date of birth
- Race
- Remarks
- Violations
- License issue and expiration date
- License class, type and status
- Hair and eye color
- Height

Microbilt's MVR is used by industries that screen employees for transportation-related work including delivery, shipping, livery service, etc.

It provides necessary background on an applicant's driving history to prevent costly litigation for the company that can be associated with hiring bad or higher-risk drivers.
